Added November 2013: Import staff and business associates then report on the comparison to LEIE, MediCheck and SAM (Excluded Entities Data Package) databases.

Amanda Brown **matches** on first & last name. No middle initial is available to check. Her SSN needs to be manually checked on-line.

2. Download & import exclusion lists from
 - o MediCheck (PA State)
 - o LEIE (OIG)
 - o SAM (System for Award Management)
3. Run the report
4. Confirm "possible hits" on the live websites (Why? For privacy reasons, SSN numbers cannot be downloaded).
