

Midnight Sun Computing: Eligibility 5010 News

PA Promise Certified for 270/271 batch
EVS processing since 2003

2/14/2014

Edition 2, Volume 2014

*What is Eligibility 5010? A comprehensive automation solution with batch reporting
Of **PA promise EVS** and **Staff Exclusions** (LEIE, SAM and Medichex databases)*

New Client EVS report

Clients with MCO coverage:

- Grouped by Client
- Grouped by MCO

MCO Coverage at Risk is a report that has been in place for half a year. It selects out those clients who will lose MA Service by the end of the month, and therefore their MCO coverage will also end.

One D&A agency reported that by using the **MCO Coverage at Risk** report at the beginning of the month they were able to help the clients file the paperwork needed to keep their MA eligibility.

Do you have a success story to report?

Spring is coming!

Eligibility5010 evolves during the year:

- Responding to changes initiated by PA Promise
- Adding new reports
- Updating engine
- DB Management tools
- Collaborations

Upgrade Assurance ensures that agencies have immediate access to support and updates within hours.
