What is Eligibility 5010?   A comprehensive automation solution with batch reporting

*Of **PA promise EVS** and **Staff Exclusions** (LEIE, SAM and Medicheck databases)*

Do you have a report of the clients who need to renew at the MA office – can you print it out to hand to caseworkers?

Can you print a report of EVS on all clients who have an appointment today?

Does one button push give you a report of all clients who gained MCO coverage as of this morning?

Eligibility5010 has all of these reports, in addition to the audit reports that itemizes all of your MA Service clients.   A client history report can let you research a client over months.

Chart reports can be handed to or emailed to PCP.

Want to know which of your clients have changed PCP over the year? Print the report.

Doing the tedious Staff Sanctions check again? Print it out instead: Compare your staff/business associates to the federal and State DB's.

Co-Insurances? Co-Pays? Deductions – See these details on the client Chart and History reports.

Most reports have the options to include this detailed data

Eligibility5010 responds to changes initiated by PA Promise and to client requests. Upgrade Assurance ensures that agencies have immediate access to support and updates within hours.
